Electric Power Assisted Wheelbarrows (PR20571)

<https://ilcaustralia.org.au/products/20571>

A power- assisted wheelbarrow with an electric motor that assists with moving the wheelbarrow when required. The power-assist is operated by pushing down a button on the handle which will move the wheelbarrow in the forward direction and enable the user to steer. It has one speed however this speed can be customised. This has been designed to assist in carrying heavy loads or to manage inclines.

*Electric Power Assisted
Wheelbarrow*

Maintenance

Refer to the supplier and manufacturer manual for maintenance instructions and safety warnings.

Standards

Some assistive technology needs to meet Australian or other standards. Standards may relate to materials, manufacturing, and installation. Products that meet Australian or international standards will have written certification. To find out if a product meets Australian Standards ask the supplier to show you the certificate. For more information about standards see http://www.ilcaustralia.org.au/Using_Assistive_Technology/standards_regulation
